KUFPEC Indonesia Inaugurates Development House of Art & Culture

KUFPEC and its partners are firmly committed to the development of the local communities and the preservation of the environment in countries where KUFPEC is present. Through our Natuna Sea Block A, one of Indonesia’s major gas producing assets, our operator Premier Oil, and partners PERTAMINA, PTPP, and Petronas along with KUFPEC successfully contributed to the Development House of Art & Culture program in Tarempa Island in Indonesia. Inaugurated on 5 October 2016 in Tarempa Island, the groundbreaking ceremony was attended by KUFPEC Representative Mr. Abdulaziz Al-Mousawi, along with representatives from Premier Oil and Tarempa Island government representatives. Such significant projects, like the Development House of Art & Culture, positively develops people and their communities; further inspiring KUFPEC and its partners to continue its annual commitment in supporting urgently needed social and environmental projects that improves the communities and it’s current and future generations to come.
